

Omega 365 Release Notes

| UID | Feature/Module | Description |
|------------|--------------------|--|
| WFL-283204 | Activities | Activity: Workflows/Punch Items. Uniformed on the text "Create Workflow / Punch Item" |
| WFL-283919 | Activities | Scope Explorer: Fixed issue with export to excel format of Target Objects column |
| WFL-193622 | Activities | Activity Types: It is now possible to define that an activity requires atleast one object. When this is set, the user will get an error if the activity does not have an object attached to it, when trying to set status for check item, sign an activity or set it as completed. |
| WFL-284428 | Assets Objects | Har lagt til ny arkfane (til slutt i object details) for FAQ. |
| WFL-284725 | BIM & Digital Twin | IdPath changed to AccessIdPath on relevant atbv's and articles. |
| WFL-187182 | BIM & Digital Twin | Excel & pdf data export in BIM |
| WFL-185338 | BIM & Digital Twin | BIM Setup: Improved IFC file upload behavior with obsolete documents |
| WFL-184236 | BIM & Digital Twin | Implemented better way of managing Asset Objects Relations through BIM Setup Viewer. |
| WFL-187889 | BIM & Digital Twin | When point clouds are enabled, a slider appears that lets you change the point size. |
| WFL-283840 | BIM & Digital Twin | Additional options when editing view profile |
| WFL-185453 | BIM & Digital Twin | Improved link to BIM from Object Register |
| WFL-283441 | BIM Viewer | BIM Setup: model chooser now only shows org units where user has access |
| WFL-284021 | Complete | Activities: Added new option for showing curves based on filtered data. |
| WFL-283479 | Complete | New filter option added in Activities Register for "Activities with deleted objects" |
| WFL-216896 | Complete | LUN Withdrawal date cannot be set in the future. It is not possible to activate a LUN with outstanding category A punch items. |
| WFL-283449 | Complete | LUN Activity: After a LUN activity is activated it is only possible to withdraw the activity. Once it is withdrawn it is not possible to do any modifications to the activity. When the last signature is signed on a LUN the LUN Activation date is set. |
| WFL-175391 | Content Management | La til en where clause på dsAlbumMaster som begrenser bildealbummene til konsteksten en står i |

Omega 365 Release Notes

| UID | Feature/Module | Description |
|------------|--------------------------|---|
| WFL-167366 | Contract Management | <p>Added Classification Code with a lookup as a column to the grid in contractelements-register article.</p> <p>Added Classification Code with a lookup as a field to the Client Settings tag in contract-element</p> <p>Added Classification Code as a field to the pdf reports in contractelements-register</p> <p>Lookup values can be set up in o365setup</p> |
| WFL-166881 | Contract Management | Added ability to send push reminder for approval/verifications of contract elements. |
| WFL-185407 | Contract Management | Added ability to reject/verify multiple selected BOQ items. |
| WFL-283491 | Contract Management | Added URL-filtering for contract element register. |
| WFL-188967 | Core Frontend Technology | AfBatchUpdate: callback function with data-bu-onBeforeUpdate="somefunction" |
| WFL-181416 | Core Frontend Technology | DataGrid: new attribute data-search-function="afnc..." will add search box on the right. To be used with content search function. |
| WFL-283880 | Core Frontend Technology | Apps/orgunit-chooser: vDO.setCurrentIndex(vIndex); commented out as was breaking many apps |
| WFL-191280 | Core Frontend Technology | OrgUnit chooser lookup: ID filter value changed to ID instead of name. |
| WFL-284237 | Core Frontend Technology | Filter builder: fixed In List filter parsing when blank value is used with Id columns |
| WFL-284420 | Core Frontend Technology | Data grid filtering. Fixed filter error when changing operator. |
| WFL-283976 | Core Frontend Technology | FileUpload: show warning on Drop when file size = 0 |
| WFL-188033 | Cost Management | When updating Payment Forecast, if Actuals exist, it uses actual cost to push by the defined offset, and if not uses Forecast values |
| WFL-192590 | Cost Management | A view (aviw_Cost_ProjectsImport) was created that can be used in Import Profiles app for importing multiple Projects at once. All Projects will be imported into the current user Org Unit. Columns used for mapping: OrgUnit*, PlannedStart*, PlannedFinish*, Currency, CutOffType. If not specified, default Currency will be used from Parent Org Unit and default CutOffType is MLS. |
| WFL-192592 | Cost Management | A view (aviw_Cost_WBSImport) was created that can be used in Import Profiles app for importing multiple WBS structures at once. Columns used for mapping: OrgUnit_ID*, Name*, Title*, StartDate, FinishDate, Profile, CostEstimate. If not specified, default Start and Finish date will be used from Project and default Profile is 'Linear'. If CostEstimate is provided, then it is imported into Work Pack Estimates (only on Work Pack level). |

Omega 365 Release Notes

| UID | Feature/Module | Description |
|------------|-------------------------------------|--|
| WFL-284064 | Cost Management | Added navigation tree on side to show Org Unit's and WBS elements. It's now possible to navigate and view WBS Setup across different Org Units. Additional functionality has been added to be able to Copy Selected WBS elements from one Org Unit to another. Import template support importing into several Org Units by specifying an Org Unit ID in the import template. |
| WFL-191465 | Cost Management | View replaced with a stored procedure with a higher timeout (10 min) |
| WFL-254595 | Cost Management | Users can now select which changes to import into forecast in Import Time-phasing Forecast |
| WFL-284631 | Cost Management | Added tooltip "Qty accumulated" for "Qty" in BOQ Bulk app. |
| WFL-176431 | Daily Log | Added Location field & associated lookup to Daily Log |
| WFL-184546 | Doc Control, Review, Distribution + | Distribution Requirements-lookups are now sorted alphabetically |
| WFL-194442 | Doc Control, Review, Distribution + | Shared folder: Added Sender as column in Sent Documents Log |
| WFL-177312 | Doc Control, Review, Distribution + | Notification are now sent to Responsible and Notification Subscribers when external response is uploaded. |
| WFL-283298 | Doc Control, Review, Distribution + | Implemented new notification ARENA_DOCUMENT_SHARED, to be sent to notification subscribers of distribute-to org units that are added after document has been released. |
| WFL-187873 | Doc Control, Review, Distribution + | Added bit field TransferredToOperationsTrueFalse in aviw_Arena_LCIDeliveries2 (based on date field TransferredToOperations that cannot be used in Group By Folder) |
| WFL-193207 | Doc Control, Review, Distribution + | Implemented Authors field in Document Settings dialog. |
| WFL-190148 | Document Management | Added Closed functionality to Codes (Document Setup-> Codetypes/Codes) |
| WFL-182973 | Document Management | <p>Added new option "Check out document" under "Commands" (detail app) to allow for check out functionality separate from Edit with desktop. When checked out via this option, only the user that has checked out and Can Admin Doc-users may remove checkout. On check-in, one is asked to upload a new version.</p> <p>Also: added warning if attempting to download when document is checked out.</p> |
| WFL-283784 | Documentation for Operation, FDV | Added ID column in DFO requirement definitions grid |
| WFL-283340 | Documentation for Operation, FDV | DFO requirements, download selected: Added column "Object Remarks" in excel summary |

Omega 365 Release Notes

| UID | Feature/Module | Description |
|------------|----------------------------------|--|
| WFL-283386 | Documentation for Operation, FDV | DFO requirements: added distinct filtering in Component column |
| WFL-283385 | Follow-Up Items | Expanded the clickable area for cell lookup to encompass the entire cell height |
| WFL-194440 | Home & General stuff | Updated app to reinstate the Deadline/DueDate field back to Shared Folder Actions |
| WFL-193777 | Home & General stuff | Added Translations for Link Names & Group Name fields. |
| WFL-188639 | Home & General stuff | Added creator-only edit feature to Diagrams. |
| WFL-192418 | Meetings | Added fields and disabled Other Participants in setup tab with a title explaining they should now use External Participants |
| WFL-191480 | Meetings | In Meeting setup, add option to "Hide meeting from Participant's Home". This will not remove participant's permissions to the meeting, but will prevent it from appearing on the home screen until meeting administrator is ready to open it up. |
| WFL-190298 | Planner Gantt View | Possible to highlight by searching (Ctrl+F) in the top right input box |
| WFL-284069 | Planner Gantt View | Added Earned Hours to planner |
| WFL-193397 | Portfolio Management | Added name attribute to value-bindings, this fixed it. |
