

Omega 365 Release Notes

UID	Feature/Module	Description
WFL-190053	Activities	Activity Types: New column added in Activity Types for defining a type as "Preservation" Activities: New option when moving objects from existing activity (before activity is started) to "copy only" instead of removing objects being moved.
WFL-193635	Assets Objects	Object Explorer: Now including description of the objects in the tree when in hierarchy mode.
WFL-192707	BIM & Digital Twin	Integrated revision changes in Verify Files article
WFL-193884	BIM & Digital Twin	Selected BIM Objects can be locked, in order to maintain selection
WFL-174687	BIM & Digital Twin	A BIM viewer can now be enabled for a process in process setup, where positions of workflows can be set when the workflow is being created
WFL-184117	BIM & Digital Twin	Distinct filtering is now available in card view in BIM
WFL-183872	BIM & Digital Twin	It is now possible to see the Gross Floor Area Estimate from Properties pane.
WFL-193709	BIM Viewer	Implemented. Now can navigate in a 360-sphere even when using orbit camera mode.
WFL-191819	Complete	Project Phases: Support for publishing project phases to orgunits. (Supported in activities register & activity detail app)
WFL-193225	Complete	Project Phases: Include closed button to show all phases.
WFL-192684	Complete	Scope Explorer: Display and selection of Activity Groups is now change so that only active AG is listed in the filter section above the tree.
WFL-191405	Complete	Packages: Field OrgUnit_ID added to support copy/paste
WFL-190143	Complete	Scope Explorer & Object Explorer now supports translations for tree structures.
WFL-188567	Complete	Discipline available in Scope Explorer & Objects Explorer
WFL-192147	Contract Management	Added simple file version support for contract files.
WFL-191690	Contract Management	It is now possible to set milestones for cost projects using the Milestones tab.
WFL-191703	Contract Management	Added Milestone column with lookup for the Contact Elements
WFL-193882	Core Backend Technology	Fixed mfa token issue after localization
WFL-191460	Core Frontend Technology	NT Filter list will have scrollbar when there is too much items.

Omega 365 Release Notes

UID	Feature/Module	Description
WFL-191435	Core Frontend Technology	NT report viewer will have hide shared filters functionality
WFL-179871	Core Frontend Technology	Implemented full-text search.
WFL-193121	Core Frontend Technology	Data grid fields selector will use fields from header or header title if there is more HTML code in header.
WFL-193318	Core Frontend Technology	NT report viewer, auto preview has been disabled.
WFL-192959	Core Frontend Technology	Data Grid: will remove spaces when setting column caption used in excel exports
WFL-193680	Core Frontend Technology	Data grid: copy selected rows functionality fixed to get correct fields. Was failing due to sort-by was removed due to performance reasons.
WFL-173105	Correspondance	Various minor improvements to the new Correspondance module.
WFL-191014	Cost Management	Adjusted app to limit loaded data to only passed in ID in url. Tab context will be switched for that instance to OrgUnit that contains WBS item. This should limit how many nodes Tree will try to load when no parameter passed, or current Context is set different OrgUnit than passed ID of WBS.
WFL-167579	Cost Management	Added possibility to show estimate pr month in project assignments.
WFL-183051	Cost Management	WBS setup application supports batch insert (via copy pasting) for any type of WBS structure (i.e. with hierarchical or non-hierarchical numbering scheme). In case of inserting WBS elements with non-hierarchical numbering scheme, Parent WBS element must be provided.
WFL-193718	Cost Management	Parameters such as Standard profile, Start and Finish Dates, and other options are only editable for Work Package level WBS elements.
WFL-189423	Doc Control, Review, Distribution +	Individual reminder is no longer available for persons that has completed their review. Automatic email will exclude persons that has completed review.
WFL-191062	Doc Control, Review, Distribution +	(Added foreign key reference to DocumentTypes.ID in DFO Requirement Definitions, DFO Requirements, where this was an issue)
WFL-192568	Doc Control, Review, Distribution +	Removed Status from setup and user guides
WFL-192289	Doc Control, Review, Distribution +	Implemented field SetResponsibleAllowEveryone in atbl_Arena_Settings.
WFL-191808	Documentation for Operation, FDV	DFO Requirements: Added column "Comment"

Omega 365 Release Notes

UID	Feature/Module	Description
WFL-193753	Documentation for Operation, FDV	DFO Requirements: Added column "Object Remarks"
WFL-193754	Documentation for Operation, FDV	DFO Requirements: Added column "Component" (from object)
WFL-192889	Home & General stuff	Updated "General help" label translations.
WFL-183390	Home & General stuff	Updated app to list Persons with context-filtered OrgUnits and Current Position.
WFL-182445	Link BaneNOR Projects	Bulk update supported in the planner. Select the relevant rows and right click in the column header and press bulk update.
WFL-187645	Meetings	MOM can be moved to Document Register.
WFL-192252	Meetings	Meeting Types: It is now possible to close a meeting type. It will after closure not appear in lookup for meeting types anymore.
WFL-192284	Mobile Apps (Web)	Mobile activity: Changed "Journal" translation in norwegian from "Dagbok" to "Journal"
WFL-193177	O365 New Tech	Report viewer: will show
WFL-192636	O365 New Tech	NT Filtering contains will split words by space. Ex: when searching for 'John Doe' it will result in [Column] LIKE '%John%' AND [Column] LIKE '%Doe%'
WFL-167257	O365 New Tech	NT loads on Safari now
WFL-192652	Org Structure, Roles & Access	Implemented whitespace trimming
WFL-191738	Planner Gantt View	Column Weight in Percentage is added to Plan, hidden by default. Weighting in Percent is maintained manually. If the weighting is above or below one hundred percent at the summary activity level, column is marked red. Actual Progress can be weighted based on the new Weight in Progress field and is calculated similar way as if weighted on Estimated hours.
WFL-190598	Planner Gantt View	When hovering the mouse cursor over the Current Cut Off line in the gantt it will show more details.
WFL-190637	Post-It View	removes space at the end of groupsort1
WFL-190654	Post-It View	Avoid post-it to disappear if there is a space at the end of the groupsort1 on either swimlane or post-it
WFL-184299	Post-It View	Drag and drop is now disabled when clicking on post-its to be copied, to prevent post-its to change place in container while clicking to mark them.
WFL-191937	Quality Management	Deleted Workflow Items and Activities are no longer listed inside lookups

Omega 365 Release Notes

UID	Feature/Module	Description
WFL-162390	Quality Management	Implemented option "Copy Link (Document only)" in documentation manuals (public). This link opens the contents in a simple public viewer app. Also: added option "Copy Link (File only)", needed because of issues with ios and embedded pdfs.
WFL-192564	Risk Management	Risk detail: Added visual indication on status and responsible fields that they are required and created separate error messages for each field.
WFL-191441	Risk Management	Risk Tags: Tags can be marked as closed in setup. Closed tags are not visible in tag look ups
WFL-182522	Risk Management	Risk Register Reports: Created risk report that shows the original and current color of each risk.
WFL-192627	Status Reporting and Reports	repeated bug handled via workflow #193133
WFL-193119	Status Reporting and Reports	repeated bug handled via workflow #193133
WFL-156060	Status Reporting and Reports	Updated elements tab with more user friendly query builder and added a link to setup page to configure elements if needed
WFL-172404	Status Reporting and Reports	Created an app called Status Reports Intervals which allows updating intervals and theirs translations.
WFL-189988	Status Reporting and Reports	Open bugs and features count can be added or hidden by parameter "ShowOpen" on the "BugsFeaturesClosedLast12Months" chart.
WFL-184652	Status Reporting and Reports	3 new elements added for Status to show status for contracts and procurement statistics as well as leads with ability to filter by Person and/or Company
WFL-193136	Workflows	Data grid export to excel: Fixed to take correct fields in data export.
WFL-193402	Workflows	Mustache comments were fixed not to use custom upload URL in order to support chunk upload.
WFL-192716	Workflows	Standardized 'Text' configurable field spelling for 'workflow-item' and 'workflow-createneeworkflowitem' apps.
WFL-191552	Workflows	Added condition to mitigate duplicate pasted text inside ContentDivs
WFL-192011	Workflows	Search in WF register: Fixed issue when filtering for Item Step Resp.
WFL-183260	Workflows	Enforced mandatory steps in sequence.
WFL-181312	Workflows	New Notification Tab to show previous updates; visible only if notifications exist for that item.

Omega 365 Release Notes

UID	Feature/Module	Description
WFL-191159	Workflows	Open UI elements to close on index change
WFL-191285	Workflows	Ensured correct filtering of objects on context/orgunit change while creating an item
