

# Omega 365 Release Notes

UID	Feature/Module	Description
WFL-181435	Activities	Activity Checklist: Added possibility for adding result URLs to a check item.
WFL-182104	Activities	Implemented max 100 activities in print selected checklists in Activities
WFL-158968	BIM & Digital Twin	Custom viewer for connecting taktplan zones to rooms in bim
WFL-161882	BIM & Digital Twin	UI in settings or pressing I on keyboard will change controls to Walking
WFL-168457	BIM & Digital Twin	checkbox to view latest revision in bim setup overview tab
WFL-173118	BIM & Digital Twin	By pressing I on keyboard enables a new type of navigation in the viewer which is similar to walking
WFL-180856	BIM & Digital Twin	Warning added in BIM Setup on IFC Files grid when Discipline is missing
WFL-182015	BIM & Digital Twin	Added ability to select objects from saved coloring rules
WFL-182029	BIM & Digital Twin	bim setup does now have a link to asset imports through the overview tab.
WFL-182002	Checklists	Roles lookup in Checklist Library > Signatures tab is now excluding permissions only roles.
WFL-182283	Checklists	GroupSort4 er lagt til som ny kolonne i Sjekklisterbiblioteket
WFL-182114	Complete	Implemented new tab in Scope Explorer for attachments/documents related to objects.
WFL-156673	Contract Management	Added a grid with activities (like in workflows). The filter "Show activities outside current context" is included. Activities can be added by using the "Add" button in first column.
WFL-166236	Contract Management	Added "Closed" for interface-types in the setup. Interface-types that are closed will be hidden in lookups.
WFL-166496	Contract Management	Have improved performance in the element register.
WFL-166599	Contract Management	Added field "Is Approved" in the element register.
WFL-166655	Contract Management	Home page actions - Contract Elements Where I Shall Approve/Verify will now only show elements where your name is in the list og approvers / verifiers
WFL-167184	Contract Management	Added support for importing contracts from excel in Contracts app
WFL-167907	Contract Management	Added WBS_ID to the BOQ import template (must use the ID because this is just a default import to the main table).

# Omega 365 Release Notes

UID	Feature/Module	Description
WFL-169659	Contract Management	See snippet. The app-text is translated but the clarification message is not. I think in this WF-case they must have had "Avviksmelding (BH)" as name at the point it was issued. The PDF report will be stored as a historic document from the person issuing and I think it makes sense to keep the "original" form here. Because of that I think we should also keep it as is in the clarifications.
WFL-170829	Contract Management	BOQ: Not sending notifications to persons where access has been closed
WFL-172217	Contract Management	Added option to add related milestones to a Change
WFL-181773	Contract Management	Improved performance on Contract Element Register
WFL-181817	Contract Management	Added column that displays difference between forecast and invoiced.
WFL-181957	Contract Management	It is possible to copy default JSON objects which can not be re-configured directly on client environment. Copied JSON object can be adjusted and then needs to be assigned to required Contract form in "Form data" field using Setup Contract Forms application: URL: "/o365setup-contractforms"
WFL-183014	Contract Management	Contract Forms setup is available via Omega 365 Setup application, based on Module permissions
WFL-182658	Core Frontend Technology	Data grid batch update will keep selection when batch update finished.
WFL-165577	Cost Management	Added setup for project types in cost module. Possible to select project type in cost projects app.
WFL-168901	Cost Management	The logic where we find the parent WBS node based on the name has been extended.
WFL-169101	Cost Management	Updated the import so that it finds the OrgUnit based on user-context.
WFL-171284	Cost Management	Added new tooltip: Rate. Specify the rate of the added currency vs the project currency. Example for project currency NOK: add currency EUR with rate 11.
WFL-174773	Cost Management	WBS Cost & Progress: Added support for weighting on cost and duration when importing actual from activities
WFL-176376	Cost Management	When updating cutoff, actual from previous cutoff will no longer be copied to the new cutoff
WFL-179659	Cost Management	CV (Cost variance) is now hidden from the chart.
WFL-181026	Cost Management	Cost Dashboard: Better performance in cost status section
WFL-181818	Cost Management	Closed elements are now hidden from the lookup in booked cost.

# Omega 365 Release Notes

UID	Feature/Module	Description
WFL-182997	Cost Management	Inserting bulk records for hierarchical WBS numbering does not require to provide Parent WBS element, it will be automatically identified and assigned by the system.
WFL-182299	Daily Log	Fixed empty journal lookup in Daily Log
WFL-182051	Meetings	Adjusted styling to prevent text overlap
WFL-182414	Meetings	Adjusted styling to ensure header label text doesn't overlap.
WFL-178190	O365 Tech	It was possible with no new added features. Added a new line at the bottom of the Layout table in setup, with myself as Person (owner)
WFL-177686	Planner Gantt View	Added Parent column to predecessor/successor lookup
WFL-181598	Planner Gantt View	Fixed slider/cursor mis-alignment
WFL-181946	Planner Gantt View	Add option to search for keyword in lookups.
WFL-176911	Planning & Scheduling	Option to including custom fields when copying plans
WFL-177815	Planning & Scheduling	Custom group by for layouts has been added to Structure tab under Print Current Plan.
WFL-182466	Procurement / Bid Manager	Added field "HR (Has Replied)" in the grid for one to one communication in procurement.
WFL-182487	Procurement / Bid Manager	Bid Manager: Procedure for sending notifications is updated to include relevant persons
WFL-181981	Resource Management	Oppdatert aviw_Resource_MyUnallocatedAssignments slik at man ikke får opp noe fra slettede stillinger.
WFL-182510	Risk Management	Implemented 'Send Email' Journal dropdown option
WFL-182117	Scope Explorer	Reports executed from Scope Explorer now include active filter in grid in addition to tree-filter
WFL-179781	Status Reporting and Portfolio Mg	Implemented recommended processes. Adding processes is done in o365setup -> Portfolio -> Processes
WFL-181333	Status Reporting and Portfolio Mg	In the portfolio workspace, users can now look up documents linked to a specific project.
WFL-182071	Workflows	Added styling to ensure line breaks are retained when workflow description is not editable
