# Omega 365 Release Notes

UID	Feature/Module	Description
WFL-194323	Cost Management	<p>Made tooltip icons the same as in curves                      Moved percentage sign after the numbers                      Made the same decimal part for grid and chart (2 digits as in Cost Dashboard)                      Removed "%" in labels                      Renamed y axis                      Made the same data formatting for tooltips (2021-Dec-31) and axis (12.2021) as it made in Cost Dashboard</p> <p>"Per xxx" labels aren't deleted. They are grey to indicate, that those data is hidden by default. It can be clicked to show mode data in the chart.</p>
WFL-191639	Cost Management	<p>added functionality to support several Forecast Methods, which allow to set Forecast method per WBS and update it based on selected method.</p>
WFL-184184	Cost Management	<p>Fields Committed, Committed Live, Booked Live, Per Booked, Baseline Estimate, Variance at Completion and Variance at Completion % were added in cost pivots</p>
WFL-193912	Cost Management	<p>Closed orgunits are now excluded from the Cost Status Org Units report.                      By default there's a filter that shows only active projects (excluding completed)                      It's possible to create a filters for yourself that will show all projects including completed, to do this click on the "Filter" -&gt; "Edit". Then insert "IsCompletedProject = True OR IsCompletedProject = False" instead of the default filter and save it. Sharing this filter is allowed with the other users, but currently we can't set this filter as a global for everyone.</p>
WFL-191641	Cost Management	<p>Added Pending and Approved changes columns in WBS Cost &amp; Progress.                      Approved changes should have an approved date and a baseline                      Pending are other unapproved changes</p>
WFL-260089	Cost Management	<p>time phasing grid and summary by year refreshes after Phase button is clicked in WBS detail application.</p>
WFL-260388	Cost Management	<p>Added ability to bulk update dates in WBS Setup application. Can only be updated for Work Package level WBS.</p>
WFL-193566	Cost Management	<p>Added ability to view Cost Dashboard at project level and minor fixes to charts.</p>
WFL-192315	Cost Management	<p>WBS Transactions tab now has Text1 and Text2 fields</p>
WFL-191723	Cost Management	<p>Added ability to change approved date in the grid.</p>
WFL-182984	Doc Control, Review, Distribution +	<p>New setting available in Omega 365 Setup - Org. Settings: "Days Reserved for Review Responsible". This new setting controls how many days are reserved for review responsible in a review.</p>

# Omega 365 Release Notes

UID	Feature/Module	Description
